

Table of Contents

Lesson 1: Your Future -- Your Profession	Lesson 23: Tympanometry
Lesson 2: Ethics and Laws	Lesson 24: Audiometric Interpretation
Lesson 3: Acoustics	Lesson 25: Presenting the Test Results to the Patient/Client and Family
Lesson 4: Psychoacoustics	Lesson 26: Hearing Instrument History
Lesson 5: Infection Control Principles	Lesson 27: Hearing Instrument Technology
Lesson 6: The Outer Ear	Lesson 28: Hearing Instrument Styles and Applications
Lesson 7: Disorders of the Outer Ear	Lesson 29: Hearing Instrument Electroacoustic Measurements (ANSI Standards)
Lesson 8: The Middle Ear	Lesson 30: Hearing Instrument Candidacy
Lesson 9: Disorders of the Middle Ear	Lesson 31: Geriatric and Other Considerations
Lesson 10: The Inner Ear and Auditory Pathways	Lesson 32: Ear Impressions
Lesson 11: Cochlear and Retrocochlear Disorders	Lesson 33: Earmolds and Other Acoustic Couplers
Lesson 12: Exploring the Hearing Loss	Lesson 34: The Delivery
Lesson 13: Otoscopy and Bracing	Lesson 35: Fitting Verification
Lesson 14: Introduction to Audiometric Evaluation	Lesson 36: Fitting Verification Protocols
Lesson 15: Pure Tone Air Conduction Audiometry	Lesson 37: Fitting Validation
Lesson 16: Pure Tone Bone Conduction Audiometry	Lesson 38: Counseling
Lesson 17: Masking for Air Conduction	Lesson 39: Beyond Hearing Instruments
Lesson 18: Masking for Bone Conduction	Lesson 40: Maintenance, Modifications and Repair
Lesson 19: Speech Acoustics	
Lesson 20: Speech Audiometry	
Lesson 21: Masking for Speech Audiometry	
Lesson 22: Additional Testing for the Hearing Instrument Fitting	

Appendices:

- Acronym/Abbreviation List
- IHS Competency Model
- Mapping to the Competency Model
- 5 Competency Based Performance Evaluations
- Final Competency Assessment
- Federal/State/Provincial Regulations
- IHS Bylaws and Code of Ethics
